

Native Education State Profiles

Wisconsin

Report Summary

The Every Student Succeeds Act (ESSA) provides tribes and states an important opportunity to advance tribal sovereignty and create positive and inclusive learning environments for Native students. Schools and Native communities must collaborate to ensure students are college, career, and community ready. As the only national organization advocating for improved educational opportunities for Native students, the National Indian Education Association (NIEA) supports and builds partnerships between Native and allied stakeholders that provide opportunities for Native students to thrive in the classroom and beyond. This state profile is available to NIEA membership, tribal leadership, educators, and allies to provide important information and highlight available resources that may be of assistance in advocacy work.
